Write definitions of word meanings

Look through the vocabulary list of words which could be used to describe yesterday's English Picture - what do they mean? Use a dictionary (online word definition works too) to explain what they mean - make sure you use your own words not just copy. Also tell me the word class - verb, noun, adjective, adverb too

sunlight		relax	
camera		vibrant	
market		stalls	
vegetables		lens	
parasol		produce	
vacation			

Choose your favourite 4 words and write a sentence for each one - try to also use the fronted adverbial, expanded noun phrases and powerful verb skills we learned last week

Transpiration Experiment

What do leaves do? One thing they do is to take energy from sunlight and use it to grow (photosynthesis). Another thing they do is transpiration. This is where water leaves the plant. Plants do this to help take in more nutrients.

You can observe this by trying a simple experiment. You'll need a clear plastic bag, string and access to a green plant. This is what you have to do.

Place your bag over a leafy branch or stem. Tie it tightly (but don't damage the plant).

Now wait for an hour. What do you notice happening inside the bag?
