# English

## Role Play

Set up an imaginary garden centre or florist's shop at home. Pretend that you are florists, gardeners and customers.

A florist could arrange bouquets for their customers and a gardener could give advice on how to look after plants and equipment.

Bouquet definition: An attractively arranged bunch of flowers.

## The Scented Garden

Our new topic is 'The Scented Garden'. By the end of this topic, we will be plant experts!

What do you already know about plants? What do you think you know? What would you like to find out? Complete a mind map to show this. You can use the word mat to help you.

### Reading skills: Vocabulary

Carefully read the text and underline any words that you don't understand. Find the meaning of these words and write it in your workbook.

## Crazy Cacti!

- 11 The cactus is a plant that grows where the soil  
21 is rocky and dry. They can do this because they  
31 have special roots that act like a sponge. The  
42 cactus can store lots of water in the body of the  
47 plant (stem) and save it for later.
- 57 The main root of the cactus is called the taproot.  
67 It is longer and stronger than the main root of  
74 other plants. It grows deep down into  
82 the ground to find water for the cactus,  
88 while the smaller roots near the  
94 surface soak up any rainwater that  
95 falls.
- .03 The outside of a cactus can feel waxy.  
.10 This waxy layer helps the cactus to  
.17 keep water inside when the weather is  
.18 hot.
